Protective Measures by Congress and Large Financial Centers Bring Absolute Calm Today.

#### FURTHER AMENDMENT TO BANKING ACT

Clearing House Certificates and Assurance of Plenty of Currency Clears Whole Financial Situation.

Washington, Aug. 4.—A resolution directing President Wilson to approach the warring nations of Europe with an offer of good offices of this government was introduced today by Senator McCumber and referred to the committee on foreign relations. He will ask for a favorable report tomorrow.

The resolution would have the president urge either mediation or arbitration. It declares the United States is the only great power whose national interests are not directly affected and the fact that the "United States represents people of all the nations involved makes it particularly certain that its friendly offices would meet no unfairness on the part of any of the nations involved in the controversy."

Washington, Aug. 4.—Amendments to the bank law extending issues of currency to 125 per cent of capital and surplus of banks and trust companies in the federal reserve system were finally passed in the house today. More than a billion dollars will be available for additional circulation.

The senate promptly agreed to the amendments, which then went to the White House for President Wilson's signature.

#### CABINET TAKES CHEERFUL VIEW OF SITUATION

Washington, Aug. 4.—Today's cabinet meeting was devoted almost entirely to discussion of the European crisis and the relief of Americans abroad.

Secretary McAdoo brought up the subject of an international clearing house association in which the United States and European nations should hold membership, as one method by which this country might insure the disposition of its wheat and cotton crops in foreign markets.

With the banks of the country fortified with millions of additional currency, officials feel that the immediate problem is how to care for the crops.

The establishment of an international association and the resumption of trade, it was pointed out, would not only result in the sale of American crops but would tend to bring back to the United States much of the gold recently exported.

Washington, Aug. 4.—No Americans can leave Germany for the present, through the German embassy at Newport, the state department has been informed that during the process of mobilization no foreigners will be permitted to depart.

In these circumstances I recommend the immediate passage by the congress of an act appropriating \$2,500,000, or as much thereof as may be necessary, to be placed at the disposal of the president for the relief, protection and transportation of American citizens and for personal services, rent and other expenses which may be incurred in the District of Columbia or elsewhere, connected with or growing out of the existing disturbances in Europe. (Signed.)

Washington, Aug. 4.—The armored cruiser Tennessee will sail from New York at 8 p. m. tomorrow with between five and eight millions in gold for Americans in Europe.

The sources from which all the gold would be taken had not been fully determined today but will be arranged at further conferences between officials and New York bankers. A navy paymaster will go in charge of the treasure.

Assistant Secretary Breckinridge of the war department and a representative of the American Red Cross will sail on the Tennessee.

Washington, Aug. 4.—The German embassy served notice on the United States today that a "state of war" exists between France and Germany. It is tantamount to a declaration of war but technically different.

#### BELGIUM APPEALS TO ENGLAND FOR PROTECTION

London, Aug. 4.—Premier Asquith in the house of commons confirmed the sending to Germany of a request that she should give the same assurance of the neutrality of Belgium as France had done and that her reply should be sent to England before mid-night.

The British government was officially informed by Belgium today that German troops had invaded Belgium and that the violation of that country's neutrality, which the British foreign secretary yesterday intimated must be followed by action on the part of the British had become an accomplished fact.

The open breach between France and Germany was rapidly followed by the appearance of German troops on French territory and by an incursion of bomb hurling German aeroplanes which attacked the fortified town of Luneville without doing anything more than damage to a roadway.

French airmen and patrols also reported to have made raids on German territory.

A more tangible occurrence was the
